## WORK EXPERIENCE

### Full-Stack Web Developer

#### Wipro

05/2022 - Present

Mumbai, India

#### Achievements/Tasks

- Developed and maintained a D2C (Direct-to-Customer) portal for ABSLI (Aditya Birla Sun Life Insurance), enhancing customer engagement and ease of access.
- Played a pivotal role in the development of the substantial LEAP (Customer Onboarding) portal, instrumental in streamlining the customer onboarding process and driving substantial efficiency improvements.
- Spearheaded the development of innovative insurance products, including Health, Child, and ULIP offerings for LEAP, delivering successful solutions that met client needs and exceeded expectations.
- Actively participated in agile development methodologies, attending daily stand-ups, sprint planning, and retrospectives, contributing to efficient project delivery and fostering a culture of continuous improvement.
- Successfully delivered high-quality code within project timelines, consistently meeting and exceeding client expectations, and thereby enhancing customer satisfaction.
- Collaborated closely with cross-functional teams, including product managers, UX designers, and QA engineers, to gather requirements, design solutions, and implement features effectively.
- Conducted thorough code reviews to ensure adherence to best practices, coding standards, and maintainability.

### Frontend Developer

#### Codeiator

05/2021 - 10/2021

Bhopal, India

#### Achievements/Tasks

- Demonstrated expertise in building frontend applications using React.js and Redux, incorporating best practices and design patterns.
- Leveraged SEO techniques to optimize website visibility and search engine rankings, ensuring maximum online presence.
- Implemented Server-Side Rendering (SSR) and Incremental Static Regeneration (ISR) in React.js to improve performance and user experience.

## EDUCATION

### B.Tech - Computer Science

#### Oriental Institute of Science and Technology

08/2018 - 05/2022

Bhopal, India

## SKILLS & COMPETENCIES

Web Development Stack - MERN | MEAN

Database Technology - MongoDB | MySQL

Javascript Framework - React JS | Next JS

Backend Technology - Node JS | Express JS | Koa

Css Framework - Material UI | Tailwind Css

Version Control Tool - Git

## PERSONAL PROJECTS

### Portfolio (04/2022)

- **Description** : Designed and developed a personal portfolio website to showcase my skills, and projects. This website serves as an online representation of me, providing an overview of work. It was built using Next.js, and incorporated GSAP for interactive animations to enhance user engagement.
- **Technologies Used** : Next.js, GSAP (GreenSock Animation Platform)

### Decor (01/2022)

- **Description** : Designed and developed a fully functional e-commerce website. The project included features such as product catalog, user authentication, and real-time updates. Leveraged Framer Motion for smooth animations and transitions.
- **Technologies Used** : Next.js, Express.js, Node.js, MongoDB, Framer Motion.

### Teams Collab (05/2021)

- **Description** : Employee Task Management app aimed at streamlining team collaboration and task management. Provided a unified space for all team tasks, with the ability to move tasks through different states for effective tracking. Additionally, the inclusion of a file-sharing "bucket" facilitated easy file access for all team members, enhancing overall productivity and communication.
- **Technologies Used** : React.js, Express.js, Node.js, MongoDB, S3.
